

---

## Lab 4

---

**Part 1:** Follow **Handout 4 R** and **Handout 4 SAS**, run all commands listed in both handouts.

Note: no need to submit.

**Part 2:** Complete all **Exercises** in **Handout 4 R** and **Handout 4 SAS**. Make sure you include clear headings (e.g., Handout 4 R or Handout 4 SAS). For each part of the question, make sure you include the command line/code, then paste relevant output/results, and also comment on the output/results as needed (to answer the questions). For example:

```
> names(arbuthnot)
[1] "year" "boys" "girls"
```

```
> plot(x = arbuthnot$year, y = arbuthnot$girls, type = "l")
```

**Part 3:** Save your file as **DA460\_Lab4\_XXXXX.docx (or .pdf)** where **XXXXX** is the first five letters of your last name, and submit it online.
