Lab 1

Part 1: Follow **Handout 1 R** and **Handout 1 SAS**, run all commands listed in both handouts. Note: no need to submit.

Part 2: Complete all **Exercises** in the both Handouts. Make sure you include clear headings (e.g., Handout 2 R or Handout 2 SAS). For each part of the question, make sure you include the command line/code, then paste relevant output/results, and also comment on the output/results as needed (to answer the questions).

Part 3: Save your file as ***DA460_Lab1_XXXXX.docx (or .pdf)*** where ***XXXXX*** is the first five letters of your last name, and submit it online.
